

I encourage you NOT to alter the current transmission agreement with K-LOVE radio. K-LOVE is an important part of my family's life. I live in Price, Utah (located in rural Eastern Utah) and receive the K-Love signal from Grand Junction, Colorado (nearly 200 miles away). Each of my vehicles' radios are set to K-LOVE and I have no other option for receiving K-LOVE's FM signal. The music, information and programming provided to me by K-LOVE radio is extremely valuable to my family and our entire community. My family is a financial supporter of K-LOVE. We choose to listen to K-LOVE about 95% of the time (ball games are important at times). K-LOVE provides an important service to my family by broadcasting family friendly programming. The effect of losing K-LOVE would be devastating to my family. We have come to rely upon the K-LOVE broadcast for great family friendly music as well as information on the issues that concern us. K-LOVE provides a valuable service to our area. Being in a remote part of Eastern Utah there are NO other sources for family friendly radio broadcasting. Please do whatever is necessary to protect the current status of K-LOVE and their ability to transmit to my family (in Utah) via FM translators (from Colorado). Sincerely,
Alan J. Peterson
